

NEWS AND VIEWS...

And What Have You

By BOB CRAIG

There's no question but what the annual Cotton Bowl battle in Dallas will have a special interest for the people of Hamlin. How often does a town the size of Hamlin have two players playing on a National Champion team playing in the Cotton Bowl?

Of course, we are speaking of Johnny "Ham" Jones and Delbert Thompson. Johnny, a University of Texas junior, is having a great year for the Longhorns even though he's not getting to carry the ball as much as he or his Hamlin fans would like. And Delbert, a UT freshman, is playing on the specialty teams and on the offensive second team.

Considering that Johnny is playing in the same backfield with Earl Campbell, the probable Heisman Trophy winner, he is getting an amazing amount of publicity, both as a runner and especially as a blocker. A less talented young man could easily get lost in the shadow of someone like Campbell.

Some years by the time the New Year's Cotton Bowl game comes on we have seen so much football that we lose interest, but think that we will be able to give it our undivided attention this year.

We will probably mention it again before Jan. 2, but we join all of the folks in Hamlin in wishing both of these young men well in their efforts against Notre Dame. It is hard to even imagine what a thrill it must be to be part of a team like this year's Longhorns.

James Roberts of Andrews makes a comment on the recent murder trial of Cullen Davis in Amarillo that bears repeating.

"Aside from the guilt or innocence of the defendant, there's something wrong with the judicial system in this country when we lock up private citizens for four months in a jury trial.

"Any criminal case that can't be tried in one week's time ought not to be tried at all. No private citizen can afford, nor should he be asked, to serve four months on a jury. . . that's not a citizen obligation. . . that's a sentence.

"A speedy trial is not only the right of the defendant, but also the jurors."

We thoroughly agree with James and might mention that in some cases the jurors serve more time than do the defendants.

The following humorous tidbit comes from a newspaper in Murray County, Oklahoma:

A man sent his little boy to borrow a copy of the newspaper from his neighbor. In his haste the little fellow ran over a hive of bees and in 10 minutes he looked like a warty squash.

His cries reached his father who ran to his assistance, and failing to see a barbed wire fence, he ran into it and broke it down. The blow took a handful of flesh from his body, and ruined a \$20 pair of pants.

The cow took advantage of the gap in the fence and got in the corn. Hearing racket outside, the wife ran out, upsetting a five-gallon churn of cream into a basket of kittens, drowning them, and in her haste lost a \$200 set of false teeth.

During the excitement, the eldest daughter ran away with the hired man. The dog broke up 10 settings of eggs, and the calves chewed the sleeves off seven shirts.

The baby, left alone, crawled through the cream into the parlor and ruined a \$300 rug.

"It is cheaper to have the paper delivered," says the old farmer, "and I will from now on."

Them Okies are smart!

FFA STUDENT HANDBOOK—Mark Carter, left, Hamlin Future Farmers of America Chapter president, receives a copy of the FFA Student Handbook from R. C. Cobb, president of Rolling Plains Production Credit Association of Stamford. Production Credit Associations across the nation financed the writing and artwork for the initial 10,000 copies of the new FFA Student Handbook.

Stamford PCA Presents New Handbook to FFA

Mark Carter, Hamlin FFA Chapter president, received a FFA Student Handbook from R. C. Cobb, president of Rolling Plains Production Credit Association, Stamford this past week. A similar presentation was made to the Aspermont FFA Chapter.

Production Credit Associations across the nation financed the writing and art work for the initial 10,000 copies of the new FFA Student Handbook, a new basis reference book for FFA members. Every FFA Chapter in the nation was sent an advance complimentary copy.

Rolling Plains PCA offered to provide complimentary copies to all FFA Chapters in its territory, which most Chapters accepted, with the number to be equal to 40 percent of each Chapter's 1976-77 enrollment.

In addition, most FFA Chapters participated in the bulk order for additional copies at a rate substantially reduced from the regular price.

The 200-page, full-color Student Handbook is a reference containing everything members need to know to advance in FFA including information on the purpose and history of FFA, parliamentary procedure, state and national activities for members, member and chapter awards, contests, leadership and personal development tips and agricultural career opportunities.

It is the first time any such undertaking has been accomplished and the FFA Teachers who have viewed the book, recognize it to be an extremely valuable tool in their teaching program.

BCD Seeking Nominations For Top Citizens Awards

The Hamlin Board of Community Development has announced that it is now seeking nominations for its annual Citizens of the Year awards to be presented at the Annual Banquet. The deadline for nominations for the award is Dec. 31.

Anyone may make a nomination and all that is required is a biographical sketch of the one to be nominated citing service and contributions they have made.

Nominations should be sent to the Hamlin Board of Community Development office before the Dec. 31 deadline.

The nominees must have

participated in or contributed to either civic endeavors, church activities, youth activities or citizenship practices. All participation or contribution must have been done on a free basis.

Any man or woman, regardless of race, creed or religion, provided that person is a member of the community, is eligible for nomination. The person does not have to be a member of any civic organization.

A secret committee of three directors will be named to screen all nominees.

The guidelines adopted by the directors last year state that only one person may be honored if the committee feels only one is qualified and also state that it is not necessary to have the award given each year if there is no one qualified to receive the award in the opinion of the committee.

Santa Claus will make his first appearance for the Yule Season here Saturday afternoon. He will arrive in town by fire truck and will pass out candy and visit with the area children in downtown Hamlin.

His trip to Hamlin is being sponsored by the Retail Trade Committee of the Hamlin Board of Community Development.

His appearance Saturday will precede the first drawing scheduled for the "Wonderful World of Christmas" promotion being sponsored again this year by local merchants who are members of the BCD. The first of three drawings will be held Saturday at 3 p.m. at the corner of South Central and Southeast Third.

Merchants who are participating in the "Wonderful World of Christmas" program this year started giving away tickets this week and will continue to give out the tickets up until the time of the drawing. Additional drawings will be held on each of the following two Saturdays before Christmas.

Four or more drawings will be held each week with the winners receiving a gift certificate good at any of the stores taking part in the program. Gift certificates valued at \$175 will be given away during the drawing this Saturday.

Each week the participating merchants will give away new tickets with the tickets good for only that week's drawings. No purchase is necessary and extra tickets will be available at the drawing. No one individual will be permitted to win more than one prize each week.

Tickets will be given only to those 18 and over or those married.

Elmer Martin Will Not Seek Re-election

Elmer Martin of Colorado City, State Representative of the 61st Legislative District now serving his third term, announced this week that he will not seek a fourth term in Austin.

In a statement issued this week, he said, "My decision has been made after many hours of long and searching thought. Serving the people of Mitchell, Nolan, Jones and Fisher counties as your state representative has been an honor which I will honor and respect always."

"But, the service has its price," he noted, "and I feel my farming and ranching businesses and my family now deserve my full attention."

Rep. Martin said that he was announcing his decision at this time so that capable persons who want to run for office might have ample time to make their plans.

Firms Submit Proposals For Low Rent Housing

Two firms submitted three proposals for the construction of 14 low income dwelling units for the elderly here Wednesday, Nov. 23. The proposals were submitted to a joint meeting of the Hamlin Housing Authority Board and the Hamlin City Council.

No decision on the three proposals was made during the meeting and another joint meeting will be held within the next two weeks. Officials from the Housing and Urban Development (HUD) will meet with the local officials at that time and a final decision should be made.

Friedman and Associates of Houston submitted a proposal for locating the units on a site north of the existing Housing Authority units on Northwest 7th Street between Ave. C and D. Their proposal was for \$301,000 plus. An

alternate proposal was submitted to include a community center and was for \$328,000 plus additional for air conditioning.

Pearce and Pace Associates of Midland submitted proposals on two different sites. Site A would be on Southeast Ave. A, bounded by Second Street on the north and extending a block and a half. Their proposal was for \$324,877 with the alternate of \$363,499 to include a community center.

Site B was for the units to be located on Fifth Street and behind Rockwell Bros. & Company. This proposal was for \$329,308 with \$367,930 to include the community center.

The 14 units would include 10 one-bedroom units and four two-bedroom units.

Assembly of God Church Revival To Open Tonight

"We're Reaching Out" will be the theme for a four-day revival at First Assembly of God Church, according to the Rev. Freddy Weaver, pastor.

Rev. Weaver said the theme was chosen to carry out the message of the evangelist, the Rev. Sam Earp of Abilene who will be here for the services. Rev. Earp, pastor of North Park Assembly of God Church, presents a television program on KTXS each Sunday morning at 9:30 entitled "We're Reaching Out."

Rev. Weaver said that in the three years Rev. Earp has been at the Abilene Church there has been considerable growth and under his guidance a new church building was built.

The revival services will be at 7:30 p.m. Thursday, Friday and Saturday and at 7 p.m. on Sunday. The public is invited.

Special music will be provided by members of North Park Assembly of God Church. Many of these are featured on the television program, Rev. Weaver said.

SAYS A&M SPECIALIST

Plan Holiday Decorating Theme, Color Scheme

College Station—Let a new theme and color scheme create excitement or serenity at home for the holiday season.

Holidays provide an excellent opportunity for generous use of accent colors and decorations—and this year's color choices are "anything goes," suggests Glenda Moore, a housing and home furnishings specialist.

HOLIDAY THEME

Selecting a holiday theme first can help set the color scheme, she says. A decorating theme might be religious, country, modern, or an "old-fashioned" Christmas.

Miss Moore is with the Texas Agricultural Extension Service, The Texas A&M University System.

Spending a lot of money on new decorations is not necessary to create this year's holiday look, either, the specialist says.

New ideas and color combinations can start with adapting decorations already on hand.

"On-hand" items can become fabric or ribbon bows, or tinsel made from popcorn or colored paper rings to carry out an "old-fashioned" theme.

For an effective country look, glue fabric scraps onto plain styrofoam balls, include a velvet ribbon at the top, and hang it on the tree with a bobbypin—or mount them around the house with thread and thumbtacks.

COLOR SCHEME

In choosing a holiday color scheme, first consider the existing background colors of walls, carpets and upholstery. Also, take the style of furnishings into consideration.

Then select one or two harmonizing or contrasting colors for "holiday colors," which do not have to be traditional red and green.

Color choices are limited only by the imagination, Miss Moore says.

Consider using red, white and gold—or green, blue and silver.

Perhaps purple, lime and green might be this year's selection. Or pink, white and gold—or green, orange and browns—or even burgundy, red and gold might look best.

In considering on-hand items with color in mind,

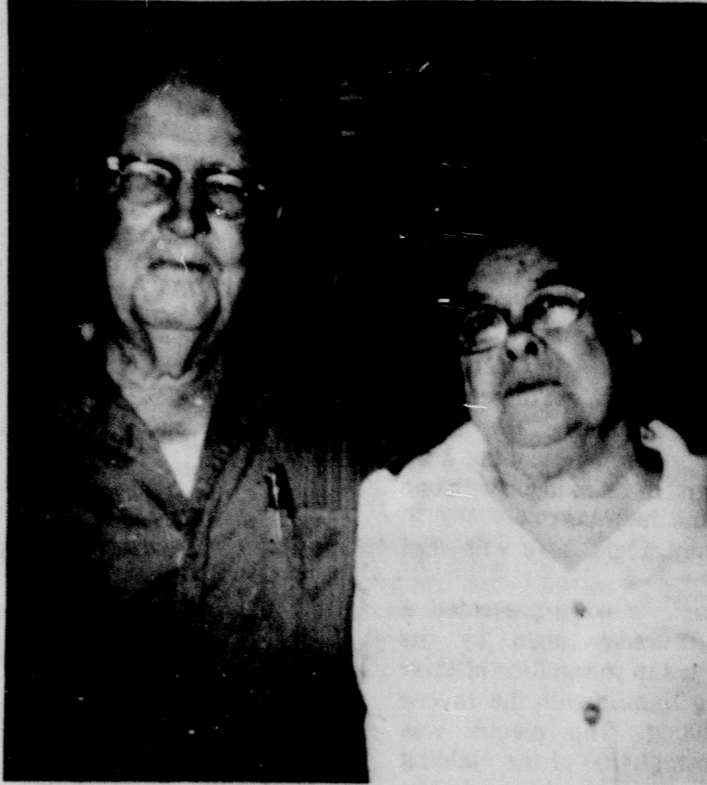

remember that greenery usually fits into most color schemes. Using either red or green as the base color also allows for the use of more lights and ornaments from last year's supply.

In fact, lighting and accents give a color scheme added excitement or

serenity.

Use colored paper over lighted valances, or try lighted wall brackets or corners for example.

A final thought: if regular home accessories do not fit into the 1977 holiday color scheme, store them till the season is over.

TO BE HONORED—Mr. and Mrs. Jim Anderson of Aspermont will be honored Sunday with an open house in celebration of their 50th wedding anniversary. The children will host the event at the couple's home. Friends are invited. Anderson is a native of Stonewall County and his wife, who was born in Alexander, La., came to Stonewall County in 1923. (Aspermont Photo)

FROM THE FILES ...

FIFTY YEARS AGO

(December 2, 1927)
One of the most far reaching roads to enter Hamlin is being opened up this week. It is a part of the Great Plains Highway between Hamlin and Aspermont. A party composed of H.O. Castle, J.J. Waggoner, J.W. Ezell, D.C. Gibson, Commissioner J.L. Keen and the Herald Editor, made an inspection of the new road last Saturday morning. It is a dandy new road. It has taken a long, long time to get this opened, but hard work and cooperation always win. Hamlin has gone down into her pockets and paid about \$3,500.00 for it, and many committees have kept right on the trail and then Commissioner Keen comes along with his big caterpillar and grader and the result is about six miles or more of 80-foot road that is practically ready to be topped. It passes through some of the finest farming land in Jones County and then through the "T Diamond" ranch about two or three miles north in Stonewall County. Only two bridges were required to be built, and they were in the big ranch. Much fencing had to be done and considerable right-of-way had to be bought. Some of the land owners gave the right-of-way and others required money and no fencing. This road gracefully springs off Central Avenue in the North part of town and then another pretty curve to the north, then straight to the county line with only two more curves before it reaches the old Stonewall County road. One thing this road does and that is to give the newcomer a better impression of the agricultural lands around Hamlin. It is a beautiful view as one rides over the ridge five miles north of town and beholds the expanse of land and homes and the City of Hamlin in the distance. This road gives Hamlin four or five dandy outlets that will impress everyone with the extent of the agricultural lands that surround Hamlin.

Emory Williams, of Hamlin, was one of the cash winners in the cream contest for Blue Valley Boys and Girls which closed recently. Nearly six thousand boys and girls in seventeen states took part in the contest, and among these 1801 cash prizes were distributed.

TWENTY YEARS AGO

(November 21, 1957)
Cash prizes will be offered to the best decorated Christmas windows prepared by clubs of the city, according to officials of the Hamlin Woman's Forum, sponsoring organization. Vacant store windows of the business section will be used as local for the decorations that will feature the Christmas season.

Each of the nine participating clubs of the Forum will be responsible for a window in the project. Owners of homes in Hamlin also are being urged to decorate their residences and yards for the Christmas season.

Many farmers of the Hamlin territory are getting ready to put mechanical pickers into the field within a few days in an effort to salvage the cotton crop that six weeks ago looked like a bumper crop. The crop still is expected to be the best the area has raised in 10 years.

Fields were drying out the first of the week after three weeks of wet weather that has kept pullers out of the fields. Hence, mechanical pickers will be used in many instances where labor had been expected to be used.

The early freeze and prolonged rains have cut cotton crop production and grades some. The feed crops are heavy producers this year, some feed having been damaged by heavy rains and water standing in the fields.

Hamlin Future Farmers of America won three first places in district leadership competition last Monday at Stamford. Twenty-four vocational agriculture boys participated to comprise Hamlin's five teams.

The three contests won by local students were junior and senior chapter conducting, and radio broadcasting. Other teams entered by Hamlin were senior farm skills demonstration and junior FFA quiz, which placed fourth and ninth respectively. Eighteen schools compose the Stamford FFA district organization.

DePriest Colored School at Hamlin has one of the finest homemaking departments in this section of West Texas, declared Mrs. W.L. Glass, area supervisor of the State Department of Education after her first visit to the new homemaking cottage at the school last Friday. Mrs. Glass inspected

other departments of the school, and declared to Principal E.S. Morgan that good work is being done by the school.

TEN YEARS AGO

(November 23, 1967)
The Hamlin City Council voted here Monday night to call an election for the approval of a one percent City Sales Tax for Thursday, Dec. 21, according to Mayor Hollis Madden.

If approved, the tax would bring an estimated \$15,000 to \$20,000 increase in city revenues.

Four Hamlin Seniors were named on the 5-AA All District team selected last Wednesday by the district coaches. Making the offensive team were Milton Davis, tackle, Raul Solis, guard and Phillip Simpson, back. On the defensive team were Davis, tackle and Terry Holt, linebacker.

The Hamlin Ex-students Association is making plans for a new student directory to be published in 1968. The officers are urging all former students who are visiting here during Thanksgiving to get in touch with one of the officers and help correlate any information that they might have with that already existing.

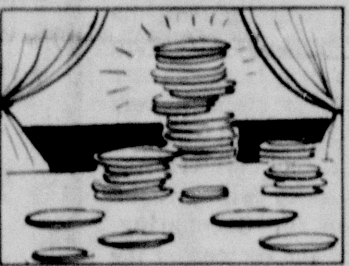

The Hamlin Jaycees were presented a special plaque Thursday night by the Hamlin Jaycee-ettes in recognition of their work in providing Hamlin with the Jaycee Community Building. The plaque was presented upon completion of the building and listed the membership of the organization during the work on the building and current members.

The Pipers won their opening basketball game here Saturday night as they downed Spur, 50-44. The Piperettes dropped their first game to Spur, 49-43.

Postmaster P.H. Sparks today urged the citizens of Hamlin to be sure to use the correct address on their letters and packages going to servicemen overseas to avoid serious delay in delivery.

QUICK QUIZ

Circle in pencil the answer which you think is correct.

1. If you have 12 coins, one of which is lighter than the others, what would be the minimum number of times you'd have to weigh them in a balance scale to determine the lighter one? (a) 6 (b) 3 (c) 12?

ANSWERS

1. (b) Divide the coins into three sets of four each. If two balance exactly, the third set contains the lighter coin. The third set, then, should be divided in two and weighed. Then the lighter set of this divided and weighed the third time.

ENZY QUIZ

If all the gold owned by mankind was formed into a single block of gold, it would measure a mere 18 cubic yards on each side though we've been digging for the precious metal for 6,000 years.

Experts estimate that about half that amount still remains in the ground. The United States, once the world's largest producer is now in fourth place. South Africa and Russia mine most of today's gold.

IN A HURRY!

It's Sunday! An exciting day! I've planned so many interesting ways to present God's love to the wee small people I'm teaching. How they love God and His church! They are always there early. Must hurry! My young ones want to be there early too. How pleased our Father in Heaven must be to see so many preparing excitedly and happily to have a worship experience with Him.

See you there in a very little while!

Psalm 26:8 "Lord, I have loved the habitation of thy house, and the place where thine honor dwelleth."

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny: the truth which alone will set him free to live as a child of God.

Lone Star Gas suggests HOW TO WRING ALL THE HOT WATER FROM YOUR ENERGY DOLLAR.

Set the water heater thermostat at NORMAL, which is hot enough for most household requirements. If more hot water is needed temporarily, move the setting to HOT, then reset to NORMAL.

Remember that a brief shower normally uses less hot water than a tub bath. Avoid letting hot water run needlessly when shaving, washing hands, rinsing dishes. Save hot water and the energy it takes to heat it by fixing dripping faucets. Save hot water and energy by waiting until you have full loads for the washer and dishwasher.

Drain a gallon or more of water from the faucet at the base of the water heater about once a month. This prevents a

buildup of mineral deposits. And this buildup causes the water heater to work harder and use more gas.

Remarkably efficient gas reaches your meter with 93% of its original energy still available — because gas is a natural energy that's used in its original form. Using it directly for the jobs it does best actually helps conserve energy.

For more suggestions, request our free booklet, "Energy Conservation in the Home."

Sen. Tower to Visit In Aspermont Monday

Aspermont—U. S. Senator John Tower has re-scheduled his visit to Aspermont for Monday, Dec. 5. His visit will be part of his four-day trip through the High Plains and Panhandle area.

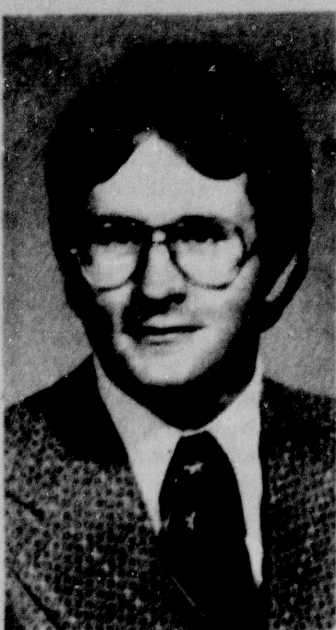

He plans to be in Aspermont at 10:45 a.m. Monday at the courthouse and will be introduced by Mayor Oscar Dickerson. He will open the tour at Guthrie Monday morning at 9 a.m. Following his visit to Aspermont, he will be in Jayton at noon and then will be in Spur at 1:45.

Tower is making the Panhandle-Plains trip during the informal recess from Senate business. House-

Senate conference committee members currently are wrestling over differences in measures passed by the two Houses dealing with energy and other legislation.

The Texas senator is scheduled to travel into 21 communities during the swing. The tour first had been scheduled for the early days of November, but Senate business and key votes forced Tower to postpone it.

At each community, Tower will report briefly on the successes and failures of the Congress and then answer questions from citizens. He also expects to hear opinions from residents on national as well as international issues.

T.C. Gaither Named Asst. County Agent

Aspermont—Thomas C. Gaither, a native of Oklahoma who grew up in Aspermont, has been named new assistant county agricultural agent and will join the Terry County Extension staff Dec. 1.

Gaither, son of Mr. and Mrs. H. D. Gaither of Aspermont, replaces James McBee, who resigned in August.

The new agent holds a Bachelor of Science degree from Texas Tech University and will receive the Master of Education degree from Texas Tech in December.

While at Tech he was a Dean's Honor List student, Collegiate FFA reporter, a member of the livestock judging team, and Block and Bridge.

He has worked on a ranch, a farm, as an appraiser with the Agricultural Stabilization and Conservation Service, and as a laboratory assistant at Texas Tech.

The new agent will work with Extension Agents Edward G. Smith and Mrs. M. Jane Blay in conducting adult and 4-H educational programs in the county.

Aspermont to Play In Albany Tournament

Aspermont—The Aspermont varsity boys and girls basketball teams will play in the Albany Invitational Tournament this weekend in Albany. They will go back to Albany again Tuesday for four games starting at 4 p.m. with the girls junior varsity.

Playing here Monday evening, the Hornets edged Breckenridge, 59-58, with Harris scoring 13, Godfrey 15

and Dickerson 17. The girls got off to a slow start, scoring only four points in the first period, to lose, 44-42. Bookman scored 20 points and McAnally 10. The girls JV team defeated Breckenridge, 28-24.

The eighth grade boys and girls will play at Old Glory Monday night with the first game starting at 6:30.

Agent Offers Tips On Controlling Brucellosis

Aspermont—Brucellosis continues to be a major problem in Texas cattle herds, says E. T. Hennig, county agent with the Texas Agricultural Extension Service for Stonewall County. As of October 1 there were 2,785 quarantined herds owned by 2,390 individuals. Why does brucellosis continue to be such a serious problem? Hennig lists these reasons:

—Lack of immunity in breeding herds. This can be strengthened by a continuing program of calfhood vaccination of all beef and dairy heifers using Strain 19 brucella abortus vaccine.

—Failure to separate "heavy springers" and calving animals from the breeding herd. The disease is spread more frequently when a reactor animal aborts or during calving.

—Failure to test the complete herd on each test. Testing only the cattle in the same pasture where a reactor is found is not adequate if other cattle on the ranch are not tested. Unrecognized reactors may continue to spread the disease.

—Failure to separate or isolate test reactors or aborting animals from the herd at the earliest opportunity. Reactors and those animals aborting because of brucellosis can continue to spread the disease.

—Failure to isolate and re-test purchased replacements before adding to the herd. One test is not enough if the source of cattle is not free of brucellosis.

—Failure to retest quarantine herds at the proper time interval.

Unless producers pay closer attention to ridding their herds of brucellosis, the disease will continue to cause serious problems, contends Hennig.

Screening Clinic Set Wednesday

Aspermont—The Texas Department of Health, Region 4, will hold the monthly screening clinic at Stonewall County Library Wednesday, Dec. 7 from 10 a.m. to 3 p.m.

Screening services are offered for diabetes, high blood pressure and skin tests for tuberculosis. The public is invited and there is no charge.

Voters of the 101st Legislative District. . .

I will be a candidate for renomination in the Democratic Primary of May 6, 1978, for the office of Representative in the 66th Texas Legislature.

Due to uncertain world conditions, next year's election will be of unusual importance. All of us are hopeful that no emergency will develop. But it is something more than a possibility. Whether it is national or international in scope it will have an important bearing on public affairs in Texas.

There are no problems in Texas affairs at this time. We have no new taxes. We are operating under a balanced budget. Revenues are sufficient to meet our needs and maintain economic growth.

In any event, however, the need for experienced leadership in the legislative branch of State Government was never greater. Impact on the legislative process takes place in committee. My seniority assures my membership on committees whose jurisdiction includes matters of special concern to the people of our section of the State.

A majority of House members are now elected from counties which have large cities. The only effective means of protecting interests of people living in small towns and rural areas is to have a voice in the decisions of key committees.

I appreciate your support in the past hope you will see fit to renew my commission to represent you in State Government.

NEWS FROM

OLD GLORY

By BERNICE D. WHITE
989-2992

Old Glory folks found much to be thankful for during this week of gathering of kinfolk and friends. Crops turned out good for most everyone and best of all it was a safe weekend for those who were out on the roads traveling, at least we haven't heard anyone report otherwise.

The Old Glory Variety Club met on Tuesday of last week with Mrs. E. H. Diers. Seven members answered the roll call and officers were elected for 1978 as follows: Mrs. Allen Letz, president; Mrs. Lisbon Letz, vice president; Mrs. Garrett Spitzer, secretary-treasurer, and Mrs. Jack Jones, assistant secretary-treasurer; Mrs. Beno Herttenberger, devotional leader and Mrs. Adeline Letz, reporter.

The ladies sang three songs, Mrs. Herttenberger led them in prayer and they drew names for their Christmas Gift exchange. They voted to bake cookies to present to the folks at Rice Springs Care Home in Haskell this year.

Carriker to Head Texas FU Policy Session

Waco—Steve Carriker of Hamlin has been appointed by President Jay Naman to chair the annual policy drafting meeting of the Texas Farmers Union in Abilene, December 8 and 9. Drafting of amendments and additions at the state level follows similar actions at the county level and precedes final delegate action on the official policy of Texas Farmers Union at its annual convention to be held in Austin, January 20 and 21.

Besides being appointed to chair the twenty-man drafting committee, Carriker serves as President of the Fisher County Farmers Union and is a member of the Board of Directors of the Farmers Union Co-op

Gin at Roby. A graduate of the University of Texas at Austin, Carriker is a cotton farmer near Hamlin, is married and is the father of one son.

Philosopher Thinks He Has Solution to Complaints About Pro Football's Officials

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One this week discusses a burning issue of the times.

Dear editor:

In these troublesome times, although as far as I can tell nearly all times in the history of the world have been troublesome, there are some things that take priority over others. For example, when the networks interrupted a football game a couple of weeks ago to flash some news about Sadat's trip to Israel, telephone switchboards at TV stations all around the country lit up with protests from sports fans.

You see, the Mid-East will never become fully civilized until it becomes normal for a

network to say, "We interrupt this war to bring you the score of the Super Bowl game."

Therefore, recognizing what takes priority, I'd like to plunge right into a grave matter now bothering professional football. It's the matter of penalties.

Players are saying the officials are making some bad calls and missing some good ones. They'll call pass interference when it wasn't, miss calling it when it was. They'll call some holding penalties, especially at crucial times, and miss three-fourths of the others. When a fight breaks out, they'll throw out the wrong guy.

The players are being unreasonable. How can they expect five or six officials to keep up with twenty-two players jumbled up on a football field 100 yards long? And all trying to win by whatever means because their salary depends on it.

But like Congress, most people had rather fuss and fume about something than do something about it.

Actually the solution is simple. Every game should have twenty-two officials, each assigned to just one player with instruction to never take his eyes off of him.

While I realize that on nearly every play yellow flags flying in the air would look like balloons being released at half-time, you've got to admit few rule in-

fractions would go undetected.

At the same time, attendance might drop off disastrously as fans discovered they couldn't see the players for the officials. It'd be like going to a car-racing event and never seeing any smash-ups. I give up. Next week I'll solve the Mid-East problem.

Yours faithfully,
J.A.

AUSTIN—Legislative tax policy planners received a super-rosy picture of the state's economic outlook and governmental income potential.

One storm cloud on the horizon, however, is the uncertain energy picture and, particularly, the specter of an "anti-Texas" federal energy passage emerging from congress.

"Everything looks good," Houston economist George Crosby told the House Ways and Means Committee at a special hearing here. "The energy situation is the main uncertainty."

Crosby noted Texas is the fastest-growing state among the top 20, unemployment is below the U.S. average and declining, and an increase in industrial plant construction is offsetting a decline in residential building.

Bill Allaway, a revenue estimator for State Comptroller Bob Bullock, said income from the sales tax bill will continue to increase at the rate of 11.8 per cent and 11.3 per cent during the next two years—reaching a total of \$4 billion for the 1978-79 fiscal period.

In spite of a decline in production, natural gas taxes also are continuing to increase. Severance taxes on gas are expected to reach \$550 million in 1978 and \$670 million in 1979, according to Allaway's forecast.

The Ways and Means Committee also was reminded that Texas is one of three states which taxes gasoline at under seven cents a gallon (five cents). At four per cent, the Texas sales tax is about mid-range for the nation. The cigarette tax is among the highest (18.5 cents a pack). The gas severance tax also is among the highest, and the oil severance tax rate about mid-way for the oil-producing states.

Outside Sales Approved

Texas Railroad Commission allowed a major Texas gas distributor to sell surplus natural gas out of state without prior approval.

Lo-Vaca Gathering Company, however, must credit part of the profits from such short-term interstate sales to Texas consumers, the commission determined.

The commission said the surplus sales could have as much as seven to 12 cents per thousand cubic feet effect on potential gas cost increases.

The interstate sales further would have to be interrupted and gas returned to Texas when needed by residential consumers. Copies and detailed descriptions of each sales contract must be filed with the commission for subsequent review.

Logs Are A Luxury

Wood for the home fireplace is becoming a luxury fuel, depending on where and how you buy it, according to Agriculture Commissioner Reagan V. Brown.

Brown's survey noted wood which sold for \$30 to \$35 a cord two years ago, mixed loads of green and dry firewood, now ranges from \$60 to \$95, with some quoted as high as \$120 a cord.

Brown advised wood buyers to be aware of how much wood makes up a legal cord. He said a rick can be a ripoff since there is no legal definition of that measure, and there is no definite number attached to "a pickup load."

A legal cord of wood is a reasonably tight stack of logs measuring four feet wide, four feet high and eight feet long, or 128 cubic feet. Prices vary. In Central Texas, oak is quoted at \$60 to \$70 a cord. In metropolitan Houston and Dallas, though, oak will cost you \$75 to \$90 a cord. Mesquite is also bringing \$95 to \$120 in Houston and Dallas.

Attorney General Opinions

A city may lease a spoil disposal site for production of marine life (mariculture), Atty. Gen. John Hill determined. In other recent opinions, Hill concluded:

The Board of Nurse Examiners can promulgate rules regarding the use of titles indicating that a person is a licensed registered nurse. Prosecution must be based on violation of the law, not the rule.

Policy of the Adjutant General's Department requiring employees to retire when they become eligible for two annuities, such as military reserve retirement benefits and reduced social security benefits, is invalid.

HEIDENHEIMERS

As soon as a toothbrush shows wear, replace it, advises Carla Shearer, health education specialist with the Texas Agricultural Extension Service.

Wear several shawls at once. It's a cool weather layering trick, says Mrs.

Becky Culp, area clothing specialist with the Texas Agricultural Extension Service. The Texas A&M University System. She suggest a small one tied at the neck, a long oblong under the collar hanging loose, and a large square or triangle draped around the shoulder.
